It is vendor-neutral, meaning it covers a broad range of Linux distributions and technologies, making it ideal for professionals seeking versatile expertise.

Certification Levels

The LPIC program is divided into multiple levels:

- LPIC-1 (Junior Level Linux Certification):** Demonstrates basic Linux administration skills.
- LPIC-2 (Advanced Level):** Focuses on advanced administration, networking, and security.
- LPIC-3 (Senior Level):** Specializations in areas like security, virtualization, and high availability.

Most learners start with LPIC-1, which is the foundation for all subsequent certifications.

Structure of the LPIC-1 Exam

Understanding the exam layout helps tailor your study strategy.

Exam Details

- Number of exams:** Usually two exams (101 and 102), each lasting approximately 90 minutes.
